

Arjuna Inquiry Canvas

Produces an Inquiry Pack for one decision.

DECISION

ACCOUNTABLE OWNER

DATE

STEP

YOUR TEAM'S ANSWER

1 Write the decision in one sentence

Without mentioning a preferred technology, model or analysis.

2 Name the owner and window

The decision owner, the decision date and the options currently available.

3 State outcome and guardrails

The outcome to protect and the limits that must not be violated.

4 Classify the question's realm

Descriptive, diagnostic, predictive, causal, counterfactual, normative or boundary.

5 Define the frame

Population, unit, comparison, period and important exclusions.

6 List assumptions and an invalidator

Three assumptions, and one finding that would reframe the question.

7 Apply the Stakeholder Lens

Who benefits, who may be burdened, and whose perspective is absent.

8 Pass both gates

The Answerability Gate and the Decision Value Gate.

9 Generate five subordinate questions

One prerequisite, one alternative explanation, one stakeholder, one evidence and one unknown.

10 Choose the next mode

Analyse, experiment, observe, consult, defer or stop.

WHAT THIS CANVAS PRODUCES

An Inquiry Pack: the approved Decision Question Contract, the question realm and evidence obligation, assumptions and stakeholders, answerability status, subordinate questions, prohibited inferences and the next investigation mode.
